## Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claim 1 (Currently Amended): Compositions comprising: one or more quarternized ammonium cationic polysaccharides in an aqueous ophthalmic solution in an amount effective for solution preservation.

Claim 2 (Cancelled).

Claim 3 (Currently Amended): The compositions of claim 1 [er-2] wherein said one or more cationic polysaccharides are selected from the group consisting of variations of polyquaternium-10.

Claim 4 (Cancelled):

Claim 5 (Currently Amended): A method of producing compositions of claim I [er-2] comprising: combining one or more cationic polysaccharides in an amount effective for solution preservation.

Claim 6 (Original): The method of claim 5 wherein said one or more cationic polysaccharides are selected from the group consisting of variations of polyquaternium-10.

Claim 7 (Cancelled):

Claim 8 (Cancelled).

Claim 9 (Currently Amended): The solution of claim 1 [8] wherein said solution includes one or more buffers or buffering systems.

Claim 10 (Currently Amended): The solution of claim  $\underline{1}$  [8] wherein said solution includes one or more tonicity agents.

Claim 11 (Currently Amended): The solution of claim  $\frac{1}{2}$  [8] wherein said solution includes one or more surfactants.

Claim 12 (Currently Amended): The solution of claim  $\underline{1}$  [8] wherein said solution includes one or more viscosity agents.

Claim 13 (Currently Amended): A method of using the solution of claim 1 [8] comprising: contacting a surface of a contact lens with said solution for a period of time suitable to eliminate a microbial burden on said contact lens.

Claim 14 (Currently Amended): A method of using the solution of claim 1 [8] comprising: contacting a surface of a medical device with said solution for a period of time suitable to eliminate a microbial burden on said medical device.

Claim 15 (Currently Amended): A method of producing the solution of claim 1 [8] comprising: adding an effective amount of one or more cationic polysaccharides to a solution.
